## Carbotech Brakes for Racing

We take you deeper into the corners and across the finish line first.

When you want the control and modulation to take your track-bred car deep into the turns, you need unsurpassed Carbotech Brake technology. If you're a professional racer, we have what you need. We've been involved in club and professional racing for more than 13 years. We know what it takes to win. That's why serious professional and club racers who demand the best run on Carbotech.

### SMARTER CONSTRUCTION

Only Carbotech uses proprietary ceramic and metallic brake compounds, not the carbon and iron used in conventional brake systems. These rotor-friendly compounds eliminate the grabbing and locking up that keeps your car from performing at its peak. Carbotech lets you go deep into every turn, every time.

## CUSTOM SOLUTIONS

Designed by racers for racers, Carbotech Brakes can be specified to meet the needs of your car and driving style. "In a series like the Honda Challenge, where every advantage is crucial, the Carbotech product shines above the rest. If there is one thing I can count on throughout the duration of our racers, it's the XP pads from Carbotech. The brakes were instrumental in claiming two H2 class championships in 2003 and 2004, and have put me in contention for an H1 championship in 2006. You couldn't ask for a better quality product or a more helpful and knowledgeable staff. Thanks Carbotech!"

— *Jason Franza, Honda Challenge*

"Carbotech's line of XP pads offer me a sound advantage over my competitors using other brands. As a racer, knowing my pads will not fade or fail me when I need them most is peace of mind that only Carbotech can offer. I wouldn't use anything else."

— *John Whitaker*

*2004 East Coast Honda Challenge H1 Champion*

*2006 East Coast Honda Challenge H2 Champion*

**Taking ultimate performance to the streets**

## **Carbotech Brakes for Street Vehicles**

Equip the vehicle you love with track-savvy, rotor-friendly brakes.

When you want more performance from your street car, SUV or light truck, look no further than Carbotech Performance Brakes. Our unique compounds provide positive, sure-footed stopping power.

Carbotech Brakes offer superior performance, are rotor-friendly, and last longer than any other performance brake pad on the market. It's a combination that's tough to beat.

Our pads are so durable Carbotech has been named the Official Brake of the United States Endurance Racing Association.

### **TRACK DAYS**

Carbotech Brakes take your car from the street to Track Day events with ease. They're so good at handling the stress of racing that more professional racers now specify our brakes by name, because they've discovered the Carbotech advantage. And more and more tuners now

demand Carbotech for their street machines to give them the stopping power and cornering control they crave. "It is a great deal when you can get the best product matched up with the best people to deal with. I feel that the Puskars and Carbotech fit that bill."

— *Gary Jenkins, SpecMiata Videos*

"The Carbotech Brakes are an unbelievable improvement over the OE brakes on my Acura TL-S. A great product and a great value!"

— *Chuck Seeley*

**To protect and serve**

## **Carbotech Brakes for Law Enforcement Vehicles**

They protect your rotors and stay in service longer.

Law enforcement and municipal departments need to keep their vehicles on the street where they're needed most. Carbotech Performance Brakes get the job done more reliably than any other brake.

In fact, Carbotech Brake pads deliver up to four times the mileage of conventional brakes, while protecting those rotors that are expensive to repair or replace. That means your fleet stays in service longer.

INNOVATIONS IN BRAKING TECHNOLOGY

#### **PROVEN PERFORMANCE**

Carbotech delivers outstanding braking, improved control and outstanding performance in the toughest, most demanding driving conditions.

“Our Carbotech Brake pads have lasted three to four times longer than the factory pads, and that has reduced the frequency of brake repair jobs. By increasing the uptime of the cruisers, we are projecting a significant annual cost savings.”

— *Christopher J. Collins, Chief of Police, Willoughby Hills, OH*

“Since we only do one brake job a year instead of three or four, the cost savings on our fleet of 10 cruisers is immense.”

— *Jerry Bascome, Lieutenant, Bedford Heights, Ohio Police Dept.*

## Where it all began

### Carbotech Brakes for Vintage Vehicles

We'll fit any vintage car.

We got our start designing brakes for hard-to-fit vintage vehicles, when no replacement parts were available.

We've never forgotten our roots, and today we'll custom design any pads and shoes for your vintage ride.

"These pads are awesome and I wouldn't use anything else. If you want great brakes that you can control without tearing up your rotor there is nothing better than Carbotech brake pads. I have passed plenty of guys under braking and have never locked up a tire yet."

— *Bob Kucera*

“The Race Engineering team swears by the Carbotech Pads...enough said!”

— *Bob Thornton, Owner of Race Engineering*

**NEED A SPECIAL SOLUTION... JUST CALL!**

We can custom design and manufacture Carbotech Brake pads or shoes to fit virtually any vehicle. Just give us a call and we'll find a solution.

## Where it all began

### **Carbotech Brakes... Innovations in Braking Technology**

In 1993, a dedicated group of racers and engineers got together to take braking technology to the next level. Brakes that put them consistently in the winner's circle. The result was Carbotech Performance Brakes, with a unique brake pad technology that today is used by demanding pro racers, club racers, tuners and law enforcement agencies across the country with stellar results.

Carbotech Brakes utilize a unique ceramic and metallic construction in a range of compounds that outperform other brakes. Carbotech Brake compounds deliver higher torque and fade resistance, as well as consistent brake modulation and performance over a wide range of operating temperatures. Carbotech Brakes are rotor friendly, saving money and keeping your vehicle out of the service shop far longer than the competition.

#### **CARBOTECH BRAKES OFFER**

- Confident stopping power
- Increased overall performance and handling
- Excellent modulation and release characteristics
- Better control entering corners
- Longer brake pad (street compound) and rotor life – up to four times longer than the competition!
- Non-corrosive dust

The full line of Carbotech Brakes is available in a variety of compounds – ideal for professional and club racers, street cars, police cruisers, SUVs and light trucks. And if you have a vintage or custom application, call one of our brake experts to see how we can help you.

“I have tried all the ‘brand name’ pads and can honestly say that for my heavy GTO and my late braking driving style, the Carbotech pad rises to the top as the best pad on the market. The initial bite at the beginning of the race, and consistency of the pad at the end of the race, are second to none. Zero brake fade! Perfection! Thanks Carbotech!

— **Chris Brannon**, Owner/Driver, SCCA T2 GTO Midwest Champion
